

Curriculum Vitae

Hiroki Takeda

Address:

Theoretical Astrophysics Group
Department of Physics
Kyoto University
Kyoto 606-8502, Japan

Phone: +81-75-753-3876**E-mail:** takeda@tap.scphys.kyoto-u.ac.jp**Web site:** <https://hiroki-takeda.github.io/index.html>**Nationality:** Japan**Birth:** October 5, 1993

Education

- 2018-2021 Doctor of Philosophy, University of Tokyo,
Tests of Alternative Theories of Gravity through Gravitational-Wave Polarizations,
Completion Date: March, 2021.
- 2016-2018 Master of Science in Physics, University of Tokyo,
Development of Monolithic Optical System for Lorentz Invariance Test,
Completion Date: March, 2018.
- 2012-2016 Bachelor of Science in Physics, Yokohama National University,
Proposal of Rayleigh Scattering Length Measurement in Liquid Xenon,
Completion Date: March, 2016.

Employment

- 2023-present Program-specific Assistant Professor,
The Hakubi Center for Advanced Research, Kyoto University.
- 2023-present Collaborative Assistant Professor,
Faculty of Science, Kyoto University.
- 2021-2023 JSPS Research Fellowship for Young Scientists PD,
Department of Physics, Kyoto University.
- 2018-2021 JSPS Research Fellowship for Young Scientists DC1,
Department of Physics, University of Tokyo.
- 2016-2021 Advanced Leading Graduate Course for Photon Science student,
Department of Physics, University of Tokyo.

Awards

2026	JGRG Outstanding Presentation Award, Gold Prize JGRG.
2021	GWIC-Braccini Prize Honorable Mention, Gravitational Wave International Committee.
2021	Best Student Presentation Award, Physical Society of Japan.
2015	Academic Excellence Award, Physics and Applied Physics Program, Yokohama National University.
2015	Physical Engineering Alumni Association Excellence Award, Physics and Applied Physics Program, Yokohama National University.
2014	Best Poster Award for Investigation Training Program, Physics and Applied Physics Program, Yokohama National University.

Grants

2026-2030	JSPS Grant-in-Aid for Young Scientists, Principal Investigator, Project: <i>Theoretical Study of Decoherence-Induced Quantum-to-Classical Transition of the Gravitational Field and Its Quantum Signatures</i> , Total budget: 3,500,000 JPY.
2024-2029	Hakubi project, Kyoto University, Principal Investigator, Project: <i>Testing theories of gravity in extreme environments through polarization modes of gravitational waves from compact binary coalescences</i> , Total budget: 14,320,000 JPY.
2022-2026	JSPS Grant-in-Aid for Young Scientists, Principal Investigator, Project: <i>Testing theories of gravity on cosmological distance scales by searching for polarization modes in gravitational wave propagation</i> , Total budget: 3,600,000 JPY.
2021-2024	Grant-in-Aid for JSPS Research Fellowship, Principal Investigator, Project: <i>Tests of gravity theories in strong gravity field by search for gravitational-wave polarization modes from compact binary mergers</i> , Total budget: 3,640,000 JPY.
2018-2021	Grant-in-Aid for JSPS Research Fellowship, Principal Investigator, Project: <i>Tests of Lorentz invariance of photons using an optical ring cavity</i> , Total budget: 2,800,000 JPY.

Teaching

2026-2027	Part-time Lecturer, Science of Space and Time, Ryukoku University.
2025-2026	Undergraduate thesis for 4th year students, Reseach Project P5 Department of Physics, Kyoto University.
2025-2027	Part-time Lecturer, Science of Complex Systems for 3rd- and 4th-year students, Ryukoku University.
2022-2023	Part-time Lecturer, Physics III (Mechanics) for 4th year students, National Institute of Technology (KOSEN), Maizuru College.
2018-2019	Teaching Assistant for Laboratory Class, Department of Physics, University of Tokyo.
2012-2018	Cram School Teacher for Junior High School Students, Musashi Seminar, Saitama, Japan.

Committees

Jun. 2026	International Conference "Theoretical Developments in Gravitational Wave Physics" Organizer.
Jan. 2026	International Conference "JGRG34", Local Organizing Committee Member.
Oct. 2025	Workshop "ACG2025", Organizer (Chair).
2025	Hakubi Center, Division Information Security Technical Officer.
Mar. 2025	Workshop "Gravitational Waves Related Workshop in Western Japan", Organizer (Chair).
2024	Hakubi Center, HP Working Group.
2024	Hakubi Center, PR Group (14th term), Representative.
2020	KAGRA Scientific Congress, Student Representative.

Memberships

2020 Student Representative, KAGRA Scientific Congress.

2019-present Member, The Astronomical Society of Japan.

2018-present Member, LISA Consortium.

2017-present Member, KAGRA Collaboration.

2016-present Member, The Physical Society of Japan.

Metrics

Publications: 2 book(s), 24 first-author paper(s), 81 collaboration paper(s), total 107.

Presentations: Invited talks 15. International: oral 13, poster 6.
Total: 34.

Outreach: Lectures 9. Media appearances 4. Writing 3. Interviews 7. Others 2.
Total: 25.

Publications

Books

1. Hiroki Takeda, “Unveiling the Mysteries of the Vast Universe: Astrophysics from the Age of 14” , KADOKAWA, 2023-03-20, 192 pages.
2. Hiroki Takeda, “Astrophysics Encyclopedia: Understanding the Structure of the Universe at a Glance (Korean Translation)” , Bonus Publishing, 2024-07-10, 200 pages.

Journal Articles

1. Yu Miyauchi, Hidetoshi Omiya, Atsuhisa Ota, Hiroki Takeda, Takahiro Tanaka, “The Challenge of Detecting Quantum Nature of Gravitational Waves” , arXiv:2608.08803.

80. KAGRA Collaboration (including [Hiroki Takeda](#)), “Construction of KAGRA: an Underground Gravitational Wave Observatory” , *PTEP*, 2018, 013F01 (2018). [arXiv:1712.00148](#); DOI: 10.1093/ptep/ptx180
81. LIGO Scientific, Virgo, KAGRA Collaboration (including [Hiroki Takeda](#)), “Prospects for observing and localizing gravitational-wave transients with Advanced LIGO, Advanced Virgo and KAGRA” , *Living Rev. Rel.*, 19, 1 (2016). [arXiv:1304.0670](#); DOI: 10.1007/s41114-020-00026-9

Presentations

Invited Talks

1. Hiroki Takeda, “Quantum-to-Classical transition of gravity” , Theoretical Physics Colloquium, Rikkyo University, Tokyo, Japan, December 2025.
2. Hiroki Takeda, “Quantum-to-Classical transition of gravity” , Particle Theory Seminar, Department of Physics, Kyoto University, Kyoto, Japan, November 2025.
3. Hiroki Takeda, “Quantum-to-Classical transition of gravity” , 3rd Workshop on Elementary Particles, the Universe, Gravity, and Quantum Sensing, Kochi University of Technology, Kochi, Japan, October 2025.
4. Hiroki Takeda, “High-Frequency Gravitational Waves and Decoherence” , One day workshop on High Frequency Gravitational waves, KEK, Tsukuba, Japan, August 2025.
5. Hiroki Takeda, “Can gravitational waves keep quantum nature?” , Colloquium at Theoretical Quantum Physics, Gravitation and Cosmology at Kyushu University, Fukuoka, Japan, June 2025.
6. Hiroki Takeda, “Can gravitational waves retain quantum nature?” , Mini workshop on gravity and cosmology, YITP, Kyoto, Japan, March 2025.
7. Hiroki Takeda, “Gravity Meets Quantum Measurements: Testing General Relativity with Gravitational Waves” , 3rd Joint Workshop on General Relativity and Cosmology, Saitama, Japan, March 2025.
8. Hiroki Takeda, “Testing Gravity through Gravitational Wave Observations” , Bottom-up particle and gravity fusion theory and cosmological observations, Niigata University, Niigata, Japan, December 2024.
9. Hiroki Takeda, “Testing gravity through gravitational-wave observation of compact binary mergers” , Data Oriented Astronomy 2024, The Institute of Statistical Mathematics, Tokyo, Japan, October 2024.
10. Hiroki Takeda, “Observations of gravitational waves from compact binary mergers” , The First Young Researchers’ Workshop on Multi-Messenger Astronomy, Tokyo, Japan, March 2024.
11. Hiroki Takeda, “Probing scalar polarizations in gravitational waves” , GW research exchange meeting, online, June 2023.
12. Hiroki Takeda, “Scalar polarization window in gravitational-wave signals from compact binary coalescences” , Seminar, Waseda University, Tokyo, Japan, May 2023.
13. Hiroki Takeda, “Polarization tests by DECIGO” , 21st DECIGO workshop, online, December 2022.
14. Hiroki Takeda, “Consistent search for polarization modes of gravitational waves from generation to detection” , Observational Cosmology Summer Workshop in 2022, Hamamatsu, Japan, August 2022.

15. Hiroki Takeda, “Polarization test of gravitational waves from compact binary coalescences” , Seminar at Institute of Particle Physics and Astrophysics, School of Physics, Huazhong University of Science and Technology, Wuhan, China, November 2018.

International Conferences (Oral)

1. Hiroki Takeda, “Quantum decoherence of gravitational waves” , The 34th Workshop on General Relativity and Gravitation in Japan, Kyoto University, Kyoto, Japan, January 2026.
2. Hiroki Takeda, Takahiro Tanaka, “Quantum decoherence of gravitational waves” , 24th International Conference on General Relativity & 16th Edoardo Amaldi Conference on Gravitational Waves, Glasgow, UK, July 2025.
3. Hiroki Takeda, Takahiro Tanaka, “Quantum decoherence of gravitational waves” , 15th annual conference on Relativistic Quantum information (North), Università degli Studi Federico II, Naples, Italy, June 2025.
4. Hiroki Takeda, Shinji Tsujikawa, Atsushi Nishizawa, “Gravitational-wave constraints on scalar-tensor gravity from a black-hole and neutron star binary” , The 32th Workshop on General Relativity and Gravitation in Japan – JGRG32, Nagoya, Japan, November 2023.
5. Hiroki Takeda, Yusuke Manita, Hidetoshi Omiya, Takahiro Tanaka, “Scalar polarizations window in gravitational wave signals” , 14th Edoardo Amaldi Conference on Gravitational Waves, online, July 2023.
6. Hiroki Takeda, Soichiro Morisaki, Atsushi Nishizawa, “Search for mixture of scalar-tensor polarizations of gravitational waves” , 23rd International Conference on General Relativity and Gravitation, Beijing, China, July 2022.
7. Hiroki Takeda, Soichiro Morisaki, Atsushi Nishizawa, “Scalar-tensor mixed polarization search for gravitational waves from compact binary coalescences” , Gravitational Wave Physics and Astronomy Workshop 2021, Hannover, Germany, December 2021.
8. Hiroki Takeda, Soichiro Morisaki, Atsushi Nishizawa, “Testing gravity theory with gravitational wave polarizations” , Innovative Area ”Gravitational Wave Physics and Astronomy: Genesis” Group A Winter Camp, Kyoto, Japan, January 2021.
9. Hiroki Takeda, Atsushi Nishizawa, Soichiro Morisaki, “Polarization tests of GW170814 and GW170817 using waveforms consistent with alternative theories of gravity” , 7th KAGRA International Workshop, online (Taiwan in-person), December 2020.
10. Hiroki Takeda, Tomoya Kinugawa, Hiroya Yamaguchi, “Ability of DECIGO to constrain the Type Ia supernova progenitor system” , Gravitational Wave Physics and Astronomy Workshop 2019, Tokyo, Japan, October 2019.
11. Hiroki Takeda, Atsushi Nishizawa, Yuta Michimura, Koji Nagano, Kentaro Komori, Masaki Ando, Kazuhiro Hayama, “Probing nontensorial polarization of inspiral gravitational waves with the third-generation detectors” , JGRG28, Tokyo, Japan, November 2018.

12. Hiroki Takeda, Atsushi Nishizawa, Yuta Michimura, Koji Nagano, Kentaro Komori, Masaki Ando, Kazuhiro Hayama, “Polarization test of gravitational waves from compact binary coalescences” , 15th Marcel Grossmann Meeting, Rome, Italy, July 2018.
13. Hiroki Takeda, Atsushi Nishizawa, Yuta Michimura, Koji Nagano, Kentaro Komori, Masaki Ando, Kazuhiro Hayama, “Parameter estimation with inspiral waveforms of compact binary coalescences including nontensorial gravitational waves polarizations” , 19th KAGRA face-to-face meeting, Osaka, Japan, May 2018.

International Conferences (Poster)

1. Hiroki Takeda, Takahiro Tanaka, “Strong lensing of gravitational waves with modified propagation” , COSMO’24, Kyoto, Japan, October 2024.
2. Hiroki Takeda, Takahiro Tanaka, “Strong gravitational lensing of gravitational waves with modified propagation” , LIGO-Virgo-KAGRA meeting, Barcelona, Spain, September 2024.
3. Hiroki Takeda, Yusuke Manita, Hidetoshi Omiya, Takahiro Tanaka, “Scalar gravitational wave and fifth force” , 28th KAGRA Face to Face Meeting, online, December 2022.
4. Hiroki Takeda, Atsushi Nishizawa, Soichiro Morisaki, “Search for scalar-tensor mixed polarization of gravitational waves” , 14th Edoardo Amaldi Conference on Gravitational Waves, online, July 2021.
5. Hiroki Takeda, Atsushi Nishizawa, Soichiro Morisaki, “Tests of alternative theories of gravity through gravitational-wave polarization modes” , 26th Face to Face Meeting, online, December 2020.
6. Hiroki Takeda, Atsushi Nishizawa, Yuta Michimura, Koji Nagano, Kentaro Komori, Masaki Ando, Kazuhiro Hayama, “Prospects for gravitational-wave polarization test from compact binary coalescences with next-generation detectors” , GR22 + Amaldi13, Valencia, Spain, July 2019.

Outreach

Lectures

1. “Exploring the Universe with Quantum Techniques” , KEK Summer Challenge: 8th Inter-generational Exchange Meeting, Lecture, February 2026.
2. “The Universe: What We Still Don’t Understand” , Research Exchange Meeting of Seven Kanto SSH-Designated Girls’ High Schools, Lecture, July 2025.
3. “What I thought and what I didn’t — The value of inefficiency starting from university entrance” , Yokohama National University Doctoral Student Support, Lecture, February 2025.
4. “Beyond gender boundaries before the mysteries of the universe — Thinking about STEM career paths for women with a young physicist” , Flat Citizen Seminar, Lecture, July 2024.

5. “Probing the depths of the universe with ripples in spacetime — From gravitational wave generation to cutting-edge detection technology” , Recurrent Learning Program, Lecture, December 2023.
6. “Probing the depths of the universe with ripples in spacetime” , Shibaura Institute of Technology Kashiwa Junior and Senior High School, Lecture, December 2023.
7. “Testing General Relativity and Gravitational Wave Observation” , KagaQ Tsukiyo Science, Lecture, November 2023.
8. “Exploring the Mysteries of the Universe with Gravity” , Kyoto University Faculty of Science Orientation for High School Girls, Lecture, March 2023.
9. “Probing the Universe with Gravitational Waves” , Minoh Jiyu Gakuen High School, Lecture, August 2022.

Media Appearances

1. “News Runner” , Kansai TV, Media Appearance, December 2025.
2. “Researchers’ Twitter Strategy” , Kyoto University Hakubi Center Symposium, Guest Speaker, November 2023.
3. “Ashita no College” , TBS Radio, Guest Live Appearance, February 2023.
4. “Kyoto One Day” , NHK Kyoto, Guest Live Appearance, July 2022.

Writing

1. ““Mercury’ s sky is pitch black” - An astrophysicist explains “Why the sky is blue in a way even elementary schoolers can understand”” , President Online, Article, February 2025.
2. “The hidden financial realities of the popular children’s career “Researcher”” , President Online, Article, April 2024.
3. “Disintegrated in less than 0.000001 seconds... A physicist answers a frequently asked question: “What happens if a person falls into a black hole?”” , President Online, Article, December 2023.

Interviews

1. “Jo-Ha-Kyu” , Asahi Shimbun Morning Edition, Interview Article, October 2023.
2. “Good Gourmet” , Asahi Shimbun Evening Edition, Interview Article, October 2023.
3. “Mizu Setsu” , Mainichi Shimbun Morning Edition, Interview Article, October 2023.
4. “President Family Autumn Issue” , President Inc., Interview Article, September 2023.
5. “47NEWS” , Kyodo News Agency, Interview Article, May 2023.
6. “The Gate of News” , Yomiuri Shimbun, Interview Article, April 2023.
7. “Yuraku Note” , Mainichi Shimbun, Interview Article, June 2022.

Others

1. “Doctor Idol Project: Final Audition”, Akihabara UDX Event, Concept & Planning, October 2023.
2. “4-Panel Universe” , YouTube Channel, Total views: 278,000, February 2022.
